Biomedical Engineering Society Executive Board Meeting Minutes

BMES T-shirt and Wreath sales have come to an end. Steph will let the eboard know if she needs help picking up the t-shirts to distribute at the social December 2<sup>nd</sup>.

The plant tour with Pioneer, in Marquette, for Friday, December 4<sup>th</sup> is all set. We will be meeting at the MUB Circle and leaving Houghton at 12:30 pm. We will return after the tour. Anyone who drives will be given reimbursement for gas.

David will work on getting scoop together for the website. He will work on composing specific emails to each of the Biomed professors to get the ball rolling. Everyone should bring scoop to the next Executive Board meeting.

Dave H will find paint swatches for possible colors for the Biomed Study Lounge. We need to brainstorm ideas as soon as possible so we can get funding for the room from the Biomed Department.

Echoe will continue to try to contact someone from Houghton Elementary school to determine a fundraiser that we can participate in with them, through the Terracycle program.

We plan to have a Book Exchange, the Sunday of Finals week, where people can exchange info about selling books, take a study break and get some food!

Next Wednesday, December 2<sup>nd</sup>, at 7pm we will be having a holiday social where we will frost cookies. We will also be distributing t-shirts to those who purchased one. Updates from the various chairs will be given as well. Do not forget to bring the following to this social:

Danielle – sprinkles

Steph – powdered sugar

Echoe – milk

Dave H – food coloring

Becky – vanilla + three dozen cookies

Anyone who has extra bowls and knives should bring them.

Our next Executive Board meeting will be Wednesday, December 9th, at 7pm in the Biomed Conference Room. We will brainstorm ideas for the Biomed Study Lounge, as well as possibly go to Goodwill and Salvation Army to look for couches.
