### Biomedical Engineering Society Executive Board Meeting Minutes

Our next social, which is a barbecue, will be held next Wednesday, September 9<sup>th</sup>, from 12:30 to 2pm at Princess Point. All BMES faculty, members of the BMES list, graduate students, as well as Biomed Freshmen are welcome to attend. Dave will email Becky the emails of the four Biomed Orientation Leaders in order to invite the new freshmen. Echoe and Dave will do the shopping for this barbecue early next week.

Echoe is attending the Student Organization meeting that is tomorrow, Thursday, September 3<sup>rd</sup>.

During this meeting, we brainstormed possible ideas for each of our Committees for the year.

- Ideas for Socials include a Halloween party, visiting the High Ropes course, working with SFB on Slime Time in the spring.
- Volunteering ideas include dog walking, high school visits, a can food drive with another student organization, or working at the Community Action Center.
- Ideas for Publicity and Fundraising included wreath sales, t-shirts.
- For Industry, we would like to have one plant trip a semester, but if that is not possible we will just plan one in the spring.
- Academic ideas included completion of a website for the all the scoop material that has been obtained. The best way to do this would be to create a website that Biomed have access to. David should talk to EECN or the Dean of Students if he has any questions.

Our next Executive Board meeting will be Wednesday, September 16<sup>th</sup>, in the Biomed Conference Room unless otherwise posted.
