

BMES Meeting Minutes 10/08/2008 7-8pm

We have a general meeting planned for 10/15/2008 (next Wednesday at 7pm). The location is unknown, as Becky is waiting for a room confirmation. Jared is looking into getting Dr. Gilbert to speak about his research for the duration of the second half of our meeting.

We will now be having our executive board meetings in the Biomed department.

Brett will get receipts from the BMES Conference, in order to receive our stipend.

Many ideas for fundraising were mentioned and the consensus was a Christmas wreath sale, which Jennifer will look into for more details.

As far as socials, we are tentatively planning a dog walk, for a week from Monday. Echoe is looking into the times that would be available.

A food drive and plant tour with UW-Madison are also possible events on our agenda for this fall.
