

Graduate Seminars 2011/12

The Department of Biomedical Engineering

Date	Name and Title
9/16	Niloy Choudhury, Asst. Professor, Biomedical Engineering Imaging Sub-pixel Motion using Optical Coherence Tomography
9/30	Bruce Lee, Asst. Professor, Biomedical Engineering Design and Application of Bioadhesives Inspired by Marine Mussels
10/21	Xiaoqing Tang, Asst. Professor, Biological Sciences
10/28	Feng Zhao, Asst. Professor, Biomedical Engineering
11/4	Lanrong Bi, Asst. Professor, Chemistry
12/2	Sean Kirkpatrick, Associate Professor and Chair, Biomedical Engineering
12/9	Qinghui Chen, Asst. Professor, Kinesiology and Integrative Physiology Down-regulation of SK Channels Among Hypothalamic Paraventricular Nucleus Projecting Rostral Ventrolateral Medulla Neurons and Sympathetic Activation in AngII-Salt Hypertensive Rats

Fridays at 3:00—U113 M&M Building

MichiganTech
